Title:

METHOD AND DEVICE FOR KILLING BACTERIA, VIRUSES,

FUNGUS, PARASITES AND WORMS IN WATER AND FOOD

WITH A ROTATING MAGNET

Sir:

PRELIMINARY AMENDMENT

Please enter the following Preliminary Amendment to the above-referenced case.

Please cancel original claims 1-11 and enter new claims 12-31.

- 12. (New) A device for purifying water and other substrates from pathogens selected from the group consisting of bacteria, viruses, fungi, parasites, and worms, comprising: at least one magnet mounted for rotation on a shaft; and means to rotate said shaft.
- 13. (New) A device as claimed in claim 12 wherein said magnets are radially oriented relative to the axis of rotation of said shaft.
- 14. (New) A device as claimed in claim 13 wherein said magnets are mounted in a block mounted on said shaft co-axially therewith.

Applicant:

SHALLCROSS, Kim

Title:

Method and Device for Killing Bacteria, Viruses, Fungus, Parasites and

Worms in Water and Food with a Rotating Magnet

15. (New) A device as claimed in claim 14 wherein said magnets are mounted in rows on axial facets of said block.

- 16. (New) A device as claimed in claim 15 including six said facets.
- 17. (New) A device as claimed in claim 15 wherein the magnets in each row are similarly north/south oriented.
- 18. (New) A device as claimed in claim 12 wherein said magnets are neodymium magnets.
- 19. (New) A device as claimed in claim 12 wherein said magnets are neodymium-boron-iron magnets.
- 20. (New) A device as claimed in claim 12 wherein said magnets are electromagnets.

- 21. (New) A device for purifying water and other substrates from pathogens selected from the group consisting of bacteria, viruses, fungi, parasites, and worms, comprising: a plurality of magnets are mounted for rotation on a shaft; and means to rotate said shaft.
- 22. (New) A device as claimed in claim 21 wherein said magnets are radially oriented relative to the axis of rotation of said shaft.

Applicant:

SHALLCROSS, Kim

Title:

Method and Device for Killing Bacteria, Viruses, Fungus, Parasites and

Worms in Water and Food with a Rotating Magnet

- 23. (New) A device as claimed in claim 22 wherein said magnets are mounted in a block mounted on said shaft co-axially therewith.
- 24. (New) A device as claimed in claim 23 wherein said magnets are mounted in rows on axial facets of said block.
- 25. (New) A device as claimed in claim 24 including six said facets.
- 26. (New) A device as claimed in claim 24 wherein the magnets in each row are similarly north/south oriented.
- 27. (New) A device as claimed in claim 26 including six said facets.
- 28. (New) A device as claimed in claim 21 wherein said magnets are neodymium magnets.
- 29. (New) A device as claimed in claim 21 wherein said magnets are neodymiumboron-iron magnets.
- 30. (New) A device as claimed in claim 21 wherein said magnets are electromagnets.
- 31. (New) A method of purifying water or any other substrate comprising: providing a device comprising;

at least one magnet mounted for rotation on a shaft, means to rotate said shaft,

Applicant:

SHALLCROSS, Kim

Title:

Method and Device for Killing Bacteria, Viruses, Fungus, Parasites and

Worms in Water and Food with a Rotating Magnet

rotating said shaft, and

bringing water or other substrate into proximity with said at least one magnet.

Respectfully submitted,

Richard P. Stitt
